Some people think the Sherlock Holmes stories, created by Sir Arthur Conan Doyle, were the first detective stories ever written. In fact, the first such story was published in 1841, much earlier than those written by Doyle by an American writer Edgar Allen Poe, and called "The Murders in the Rue Morgue". The fictional detective was a French man, and the story was set in France. This was because at this time only in France were there such people as private detectives. The first detective novel was not published until 1856. Although it pretended to be a true life story of a real police officer, it was wholly fictional and was written by William Russel.

30. It's obvious from the passage that the reason why the first detective story was set in France ----.

- A) is still unknown as the writer didn't declare it before
- B) is because its writer was a French man
- C) can be explained as the French are more interested in detective stories
- D) is completely different from what we know
- E) is because only in France were there private detectives

29. It's clear from the passage that the Sherlock Holmes stories ----.

- A) brought both a worldwide fame and considerable wealth to Doyle
- B) are known to be written by Doyle, but the actual writer of them is Poe
- C) are not the first detective stories unlike what some people think
- D) gave the inspiration to William Russel while writing a detective novel
- E) weren't published until 1856, when the first detective novel was created

31. Which of the following is true about the first detective novel?

- A) It is known to have been published before 1850s.
- B) It was written by the American writer Edgar Allen Poe.
- C) It was fictional though it was presented as if it was a true life story.
- D) It was published much earlier than the detective stories.
- E) It was written by Sir Arthur Conan Doyle.

Studded, with crater lakes and blanketed by lush forests, Mount Marsabit stands as a fertile sanctuary above the barren sands of northern Solalia. For thousands of years, pastoral nomads have thrived here because they and their animals travel lightly on the land. Mobility is the key to survival. Here, drought, the long hunger that descends ruthlessly from a searing sky, is not a cruel oddity, but a constant, if unpredictable, feature of life and climate. Surviving drought has been the essential challenge that made the desert peoples of Kenya the hardy people that they are.

ÖZDEBİR YAYINLARI

33. The author suggests that the best way to survive in such an environment is ----.

- A) by being mobile
- B) to live in the mountains
- C) by predicting droughts
- D) to be cruel and odd
- E) to own a cattle ranch

32. It's implied in the passage that the part of northern Kenya described ----.

- A) is totally covered with rain forest
- B) is home to a lot of wild animals
- C) provides an easy life for local tribesmen
- D) is popular with tourists
- E) is a difficult place to live in

34. It is clear from the passage that local inhabitants regard drought as ----.

- A) the reason for their poverty
- B) a good excuse to travel lightly
- C) something out of the ordinary
- D) a normal part of life
- E) a curse from God

Planet Earth is 4.600 million years old. If we condense this unimaginable time-span into an understandable concept, we can liken Earth to a person of 46 years of age. Nothing is known about the first 7 years of this person's life, and whilst only scattered information exists about the middle span, we know that only at the age 42 did the Earth begin to flower. In other words, dinosaurs appeared a year ago when the planet was 45; mammals arrived only 8 months ago, and modern man has been around for 4 hours. During last hour, man discovered agriculture. The industrial revolution began a minute ago. Yet, still, modern man has caused the extinction of 500 species of animals, destroyed the planet while searching fuels and so on in such a short time.

36. As stated in the passage, if we consider Earth as a person, we may say that ----.

- A) it is a year since dinosaurs have existed
- B) Planet Earth has hardly witnessed unimaginable changes since it was born
- C) the most fruitful years of it was when it was in its twenties
- D) modern man is about two years old
- E) the Earth used to be a fertile planet until the age of forty

35. According to the passage, despite the Earth's long life, ----.

- A) we have uncovered many mysteries about it
- B) the exact age of it is not clearly known
- C) it is a small child if we liken it to a person
- D) its natural resources have begun to be used up
- E) we know little about it

37. What can be concluded from the passage?

- A) The Earth used to be much more inhabitable in its early years than now.
- B) It is only the industrial revolution which causes irreversible damage on Earth.
- C) The extinction of some animal species is a result of global warming.
- D) Nothing gave harm to the Earth as much as man did, though he was the latest to arrive.
- E) We hardly know about the Earth due to lack of scientific researches.

A professor of Toronto University has been studying for the past 25 years on why people lie. According to the results of her research, we lie for five basic reasons. Firstly, we lie if we are afraid. We think we will be punished if we tell the truth. Secondly, we lie when we feel embarrassed. Thirdly, we lie to protect people we love. Fourthly, we lie when we don't want to take responsibility or get involved in a dangerous situation. And, lastly, there is the lying that has become a habit, an instinct. For instance, someone rings you up early in the morning. You are still asleep. "Did I wake you up?" the voice asks. "No," you reply "I've been up for hours." And so your day starts with getting another fib, a small lie, and, presumably there will be many more to come before the sun goes down.

- A) because sometimes we don't want others to stop us from doing something
- B) especially if we want to do something undesired
- C) if we try to hurt someone we don't like much
- D) only when we don't want to be involved in a dangerous situation
- E) when we try to avoid punishment that may follow telling the truth

40. According to the writer, it is probably true that ----.

- A) there is no need to lie most of the time when we lie
- B) people tend to protect people they love while telling the truth
- C) it is always the feeling of fear which makes us lie
- D) the lies we tell mostly result in difficult situations
- E) we tell many trivial lies instinctively or habitually till the sunset
